

Make 'Live' Communications Meaningful to Everyone

Translators USA combines the highest quality interpreter services with industry-low pricing.

There's something about 'live' communication that gives it more power. We gain insight from other people's expressions, their posture, or tone of voice. Translator USA's interpretation services remove language barriers and help you communicate the spirit of your message as well as the words.

Your message is our priority. That's why we match interpreters to our clients based on:

- Target audience
- Depth of cultural immersion
- Country of origin
- The subtleties of regional vernacular and culture
- Education/industry knowledge (i.e. legal, pharmaceuticals, healthcare, technology, commerce, sales and marketing, media, academics, engineering, finance, business management, and politics)

**Communicate in a way that makes the most positive impact!

With Great Interpretation, One Speaks and the Other Understands!

Consecutive Interpreting

Language fluency meets exact recall as our highly skilled linguists deliver line-by-line interpretation at meetings, conventions, legal hearings, teleconferencing, press conferences and more. Our consecutive interpreters exhibit superior professionalism and accuracy in their work, and receive continuous training for such jargon-laden environments as law, medicine, and technology.

Simultaneous Interpreting

Interpreters supporting specific languages transmit information from sound booths, delivering accurate, real-time interpretation and a more immersive experience. Of course, Translators USA provides state-of-the-art interpretation equipment for crystal-clear audio via new wifi-based audio broadcasting technology or over headphones and receivers. We can support events ranging from dozens of attendees to thousands.

Telephone Interpreting

Available to all industries, TUSA's 24-hour telephone interpreter service (TUSA-LINK) combines communication technology and deep linguistic resources for on-demand access to over-the-phone interpretation. Just call your dedicated toll-free number, enter your secure access code, and select the required language code. Soon, a seasoned interpreter will join to facilitate a conversation with the Limited English-Proficient (LEP) party.

ASL Interpreting

Our ASL (American Sign Language) interpreters level the playing field for people with hearing disabilities, enabling you to welcome these clients, business associates, employees and others to any conversation or meeting. Rest assured that Translators USA only contracts the very best ASL interpreters throughout the United States.

Multi-language events require Translators USA.
